Fall 2009

Updated:10/01/2009

About this Guide: We have tried to collect as much information as possible about tutoring resources on campus, including ACCESS/PAL tutoring and ACCESS/SI. Our focus is primarily on GenEds and 100 and 200 level courses, so you may not find assistance for your course listed here. You can call us at the number above to see if we have a tutor available in your course. For upper level (300-400 level) or major courses, you should contact your department or college office about tutoring. **Your best source of support is always your instructor during their office hours. Check your syllabus for this information. Getting to know your professors is a very good practice.**

When using this guide, we recommend that you look at our [drop-in Tutoring Centers](#) first for quick assistance. If you are in a course in which [Supplemental Instruction](#) is present, we recommend you work with that program first. When you apply for tutoring, there may be a delay of a few days before you are assigned to a tutor.
